Average Number of Days

Length of time between submission and app appearance

PROCESS

1 Upload overseas vaccination certificate to the government website:
<https://tiemchungcovid19.gov.vn/portal/portal-report>

1

2

2 Follow the instructions on-screen, or view an instructional video:

<https://www.youtube.com/watch?v=N7ZXjs-qiHg>

3 Download the Health Booklet App from the confirmation Page

3

4

4 Continue to check the PC-Covid App for appearance of vaccination status

5

5 Continue to carry proof of vaccination in print or photo on your mobile to show in the interim. It may or may not be accepted.

CHALLENGES

A Vietnam mobile number is required for each adult (18+) to register vaccination status. The process is not very clear and there may be different apps in use across locations. The Green Pass is used in Ho Chi Minh City, but not yet in Hanoi. Difficulties can arise if personal details including name, phone, etc. do not match exactly and consistently across the systems. The process is likely to change. There is an English translation, however some key words have not been translated.
